

Next Generation of WD GreenPower Technology

Go beyond current solutions when it comes to Green Technology. Next generation WD Caviar® Green™ 1 TB hard drives are made of 99% recyclable materials and outstand with halogen free design and even further improved power management. Latest 1 TB per platter technology, 64 MB cache-DDR2, as well as hassle free 4K (512e) integration with Audio Align result in 18% performance improvement over previous generation 1 TB GreenPower hard drives.

AWARDS

Computer Shopper
WD TV Live

Western Digital's original WD TV Live was a great media streamer – we gave it a Best Buy award when it was launched two years ago – but the new version, which bears the same name, is even better.

PC Advisor
WD My Passport Studio

Verdict: This sturdy example of engineering may stretch the pocket in more in more ways than one but it's worth every pound and gram of it. Formidable FireWire 800 Performance and decent bundled software allow the Western Digital My Passport Studio to set a benchmark for portable hard drives."

MacWorld
My Book Live

Western Digital also gains brownie points for its two iOS apps – WD Photos lets you browse photos stored on the My Book Live, while WD2go is a more advanced file viewer that allows you to view Word and Excel documents as well as stream music and video files.
